

NO to Vaccine Passports-I live in Frederick County, but often go to Montgomery County to go to venues and stores. If these tyrannical and unconstitutional vaccine passports pass, I will not ever give my business to your county again. It will be an economical disaster for your county.

This is absolutely not acceptable in America to discriminate against a group of people based on a decision that is completely individual. This goes 100% against our Constitution, and MC will definitely feel the pain of this. The people spoke today, at the first session, and most Americans do not believe in this kind of medical tyranny.

We are not a free people, if we can't make decisions that benefit our individual health. This whole 2 years has been a disaster for everyone, especially our children.

This is not a vaccine-the CDC changed the definition of vaccine to fit this experiment -it is an experimental drug. The poorly run experiments aren't even technically over until some time in 2023.

It does NOT stop transmission; it does NOT stop people from getting sick; it does NOT stop hospitalizations. I could give you example after example of this. Many 100s of thousands of people have had adverse reactions and death from this injection.

- This push and/or implementation of a "vaccine passport" is wrong on every level. IT IS UNAMERICAN!!!
